Full Stack Developer

Frontend-oriented Full Stack Developer with a strong passion for creating appealing user interfaces and delivering seamless user experiences. Proficient in Typescript, JavaScript, and React, with good problem solving abilities. Team player, highly driven, curious, and committed to continuous learning and growth.

Projects

[“Fantasea”](#) - Work in progress - Fantasy premier league web app, utilizing various official API endpoints to streamline and display data and statistics of players, teams, managers and more, as well as offering more advanced features like drafting a squad, tracking your own fantasy squad and cups.

Stack -

- **Server** - A server built with **Node.js** and **Express.js**, to gather and prepare data from various API endpoints, to be sent forward to the client.
- **Client** - A modern SPA, built with **React.js**, powered by **Vite**, leveraging **Redux** for state management, utilizing **Ag-grid** library due to its flexibility and customization capabilities to display unique and engaging custom tables, styled and themed with **Tailwind.css**.

Prior Working Experience

“Ha’Nitzanim Shel Ofir” - Co-Founder & Technical Lead - 12/2023 - Present

- Co-founded a non-profit project to provide scholarships for young adults in exchange for community service, transforming an early vision into a sustainable volunteer program.
- Led technical efforts, collaborating with "Abra" to design, develop, and implement a Salesforce CRM system that streamlined our back-office operations, from initial specification to final integration.
- Partnered with "Wix" to create and launch a modern website that effectively showcased the project to the public and potential investors, enhancing outreach and engagement.

Kafrit Industries (1993) Ltd - Quality Control & Assurance - 02/2021 - 11/2022

- Conducted rigorous and highly sensitive quality tests, utilizing advanced testing methodologies, to ensure product quality surpasses industry standards.

Education

- **Full-stack Web Development**
 - John Bryce College, Tel-Aviv - August 2023 - May 2024
